## 30 years of timeless emotions

FERNANDO GIL, CEO

Systemtronic have been present in the market for over 30 years due to the hard work and effort on satisfying the needs of those who acquire our products, in an increasingly competitive, changing and demanding environment.

If society evolves, so do we, without forgetting our essence: at Systemtronic we create solutions and inspire emotions. Our catalogue caters for all types of spaces and functions, and includes products from very talented designers, as well as key elements developed within the office.

Our daily challenge is the quality of the offered products, that's why we work actively in the training of our employees, in addition to keeping an thorough control of the manufacturing processes in order to find their critical points and apply on them continuous improvement.

La permanencia de Systemtronic en el mercado durante más de 30 años está avalada por el trabajo y el esfuerzo que ponemos en satisfacer las necesidades de las personas que adquieren nuestros productos, en un ambiente cada vez más competitivo, cambiante y exigente. Si la sociedad evoluciona, nosotros también, sin olvidar jamás nuestra esencia: en Systemtronic creamos soluciones e inspiramos emociones.

Nuestro catálogo cada vez más se adecúa a todo tipo de espacios y funciones e incluye productos de diseñadores muy talentosos, así como los que desarrollamos dentro de la propia oficina.

Nuestro reto diario es la calidad del producto que ofrecemos, para lo cual trabajamos de forma activa en la formación de nuestros empleados, además de llevar un control exhaustivo de los procesos de fabricación con el fin de encontrar sus puntos críticos y ejercer sobre ellos una mejora continua.

## Drop Top

Expanding the Drop collection, Systemtronic presents the bin with lid Drop Top, which partially hides the waste, and is identified with a vinyl pictogram for its classification into: glass, organic, general, paper or plastic, so that combinations of two or more bins can be made.

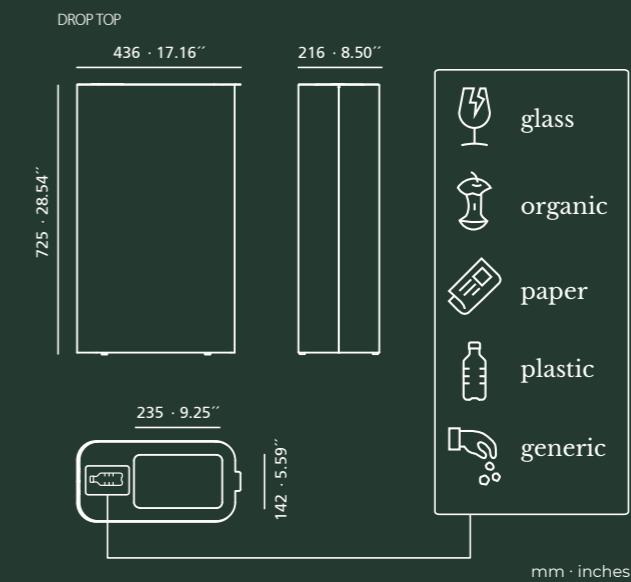

Manufactured in galvanized steel and painted with baked lacquered thermoset powder. It includes an inner ring of galvanized steel that holds the bag. Being the capacity of the bin of 65 liters, we recommend the use of 57x100cm or 70 or 80 liter garbage bags.
