Scenografie all'aria aperta

Dove il fascino dell’open air incontra quello degli elementi d’arredo, gli ambienti esterni prendono vita con composizioni disegnate per definire gli spazi all'aperto all’insegna del design e di una ricercata scala cromatica che sposa a tuttotondo le esigenze dell’outdoor living contemporaneo.
Atmosfere suggestive e rilassanti incorniciano l’eleganza di confortevoli collezioni dalle linee pulite e avvolgenti, ergonomiche e concepite secondo la massima funzionalità a favore delle persone e del loro spazio vitale.
La natura è la principale fonte di ispirazione degli arredi, che ne reinterpretano la bellezza attraverso un design caratterizzato da colori e linee armoniose.
L'impegno verso la sostenibilità si traduce nell'utilizzo di materiali di alta qualità perlopiù riciclabili e in una produzione interamente Made in Italy, pensata per assicurare solidità, affidabilità e lunga durata nel tempo.

Outdoor settings

Where the appeal of the open air encounters furniture elements, outdoor environments come to life with our compositions. They are designed to create outdoor spaces featuring stylish design and a sophisticated range of colours that perfectly meets the needs of contemporary outdoor living.
Evocative and relaxing atmospheres embrace the elegance of comfortable collections with clean, enveloping and ergonomic lines, designed with the utmost functionality for the benefit of people and their living spaces.
Nature is the main source of inspiration for furniture, which reinterprets its beauty with a design featuring harmonious colours and lines.
Nardi’s commitment to sustainability is reflected in the use of high-quality materials, mostly recyclable, and in an entirely ‘Made in Italy’ production process, intended to ensure sturdiness, reliability and long-lasting durability.

regeneration

Nardi produce arredi per l'outdoor studiati per il benessere e il relax delle persone. Lavorare al fine di rendere i processi sempre più sostenibili è parte integrante della filosofia dell'azienda che nel 2019 ha inaugurato la linea di prodotti Regeneration dedicata alla realizzazione di arredi per esterno contenenti anche una percentuale di resina rigenerata post consumo.
Nello stesso anno ha introdotto le analisi LCA su una selezione di prodotti per mettere progressivamente in atto ulteriori azioni per migliorare le proprie performance ambientali.

Come tutta la gamma di arredi, anche quelli del catalogo Regeneration sono realizzati in impianti progettati con tecnologie all'avanguardia dal punto di vista dell'ecosostenibilità. Tutti gli stabilimenti utilizzano esclusivamente energia elettrica 100% green proveniente da fonti rinnovabili certificate insieme a quella generata dal proprio sistema di pannelli fotovoltaici.

Sempre in ottica ecologica, gli imballi di protezione sono in cartone e polietilene a bassa densità completamente riciclabili, entrambi concepiti per essere ridotti al minimo. Le scatole contenitive di cartone sono composte mediamente dal 75% di fibre riciclate, con l'impiego di amido di mais come collante. Diverse sono, inoltre, le iniziative dell'azienda a favore di un corretto utilizzo e smaltimento degli imballaggi e dei bancali per il trasporto.

Nardi produces outdoor furniture tailored to people's well-being and relaxation. Working to make processes increasingly sustainable is an integral part of the philosophy of our company which, in 2019, launched the line of Regeneration products dedicated to making outdoor furniture also containing a percentage of post-consumer regenerated resin.
In the same year, Nardi introduced LCA analysis on selected products to gradually implement further actions to improve its environmental performance.

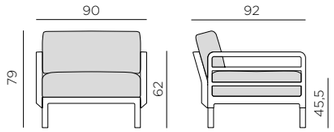

Like the entire range, the furniture in the Regeneration catalogue is made in production plants designed with state-of-the-art technology based on eco-sustainability. All production plants exclusively use 100% green electricity from certified renewable sources together with electricity generated by their own photovoltaic panel system.

Also in keeping with an eco-friendly perspective, protective packaging is made of cardboard and fully recyclable low-density polyethylene, which are both designed to be minimised. On average, cardboard boxes are made of 75% recycled fibres, with maize starch used as glue. Several of our company initiatives also support the correct use and disposal of packaging and transport pallets.

KOMODO

KOMODO è un sistema modulare di sedute configurabile a piacere. I moduli possono essere fissati tra loro e gli schienali e i braccioli sono agganciabili su tutti i lati della seduta. Oltre alla versione KOMODO 5, è possibile configurare e ordinare la tua versione personalizzata elencando tutti i singoli elementi che la formano.

KOMODO is a modular system of upholstered seats which can be configured to suit your particular needs. The modules can be secured to one another and the backrests and armrests can be attached on all sides of the seat. In addition to the KOMODO 5 version, you can configure and order your own customized version simply by listing all the individual elements you require.

durelTOP

DurelTOP è un sistema innovativo di produzione di piani per tavoli studiati per raggiungere i più elevati livelli di praticità, resistenza, robustezza ed eleganza. I piani DurelTOP sono ad alto spessore, formati da un doppio strato tamburato perfettamente chiuso. Prodotti in polipropilene di prima qualità, sono inalterabili all'acqua, resistenti al sole e facili da pulire. DurelTOP è il risultato di una lunga ricerca tecnologica e dell'esperienza nella lavorazione delle materie plastiche della NARDI, da sempre all'avanguardia nell'ambiente contract e giardino.

The DurelTOP is an innovative new system in the production of tabletops developed to reach the highest levels of practicality, resistance, and elegance. The DurelTOP tabletops have a greater thickness, formed by a double layer enclosure perfectly closed. Produced in first quality polypropylene, they are resistant to water, resistant to sunlight, and are easy to clean. DurelTOP is a result of a long research and development in plastics by NARDI, always a leader in the contract and garden sectors.
